Administering of Medication

1. It is expected that children on medication will have this administered at home.
2. If a child needs to receive any medication during school hours, either short-term or long term, a STUDENT MEDICATION REQUEST FORM must be completed; these are available from the Office.
3. Where medication must be administered at a *specific* time of the day, the parent / guardian is responsible for reminding their child and notifying relevant staff members to ensure the child presents at the Office at the correct time.
4. If your child has an EMERGENCY ACTION PLAN for a medical condition (e.g. anaphylaxis, asthma) parents/guardians are responsible for supplying the paperwork to the school and updating it as necessary, including medication that has expired.

Consent to Medical Attention

In the case of my child requiring medical treatment or in the case of a medical emergency, I consent to the school providing first aid treatment (or treatment as outlined in my child's EMERGENCY ACTION PLAN) and I further authorise the school, where they have been unable to contact me, to arrange for my child to receive such medical treatment as may be deemed necessary.
I give permission for my child to be driven to hospital by ambulance. I acknowledge that all costs incurred will become my responsibility.
